E88 Overview

- Get big performance in a compact machine, with a redesigned engine, optimized lift performance, plus undercarriage and counterweight improvements.
- Leading lift capacity and narrow footprint, with dual-flange track rollers, integrated counterweight and extra machine weight.
- Low-effort joysticks and new hydraulic control valve put every machine movement in your control.
- The new hydraulic control valve offers improved metering for smooth controllability and natural, finite movement of the workgroup and great joystick feedback.
- Operators will enjoy precise and predictable operation – plus fast cycle times – for productive digging, level grading and more.
- Available options include add-on counterweight, the Bobcat depth-check system, a Machine IQ subscription, rear-view camera, widescreen touch display and a heated, high-back seat with headrest.
